Dear valued customer,

Our records indicate that you have purchased one or more SRT Accessory Belts.

During the course of production we have used two slightly different versions of the 2" plastic jam lever buckle to secure the belt around the user's waist. It has recently come to our attention that one version of the buckle does not grip the web as well, and may slip during use. If any of the belts that you purchased have the buckle as shown in the top photo, please contact Customer Support at 800-235-5741 or 805-562-9120 for details on returning the belts so that we can replace the buckle.

If your SRT Accessory Belt has this buckle, please contact us for a replacement.

If your SRT Accessory Belt has this buckle, no action is required.

Thank you for your continued support and trust!

Steve Boothby
