MPD™ (Multi-Purpose Device)
Pulley / Descender / Belay Device

Go from lowering to raising without changing hardware.
More than nine years of research and development went into the patented MPD, which features major innovations in advanced technical hardware for rope rescue professionals. The MPD’s high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

The revolutionary MPD increases user safety with:
- Reduced Weight
- Fewer Components
- Faster Rigging
- Quick Changeovers
- Simplified Training
- Lower Risk

To watch instructional videos on the MPD, visit cmcrescue.com/MPD.

One MPD replaces
- Anchor Plate
- 3 Carabiners
- Rescue Rack
- Pulley
- Prusik Cord
- Load Release Strap

WEIGHT 2 LB, 10 OZ (1.2 KG)
