CMC ASCENDER

NEW!

CLASSIFIED
UL UL Classified to NFPA 1983
(2012 ED) - General and Technical Use

The CMC Ascender utilizes a spring-loaded cam to facilitate progression on life safety rope. Widely used by rescue teams for ascending rope, as an attachment to a litter harness tender line, as a rope grab for travel restriction, and other applications where a mechanical ascender provides greater efficiency.

- Compact, lightweight design
- Machined from aircraft-grade aluminum alloy for superior strength
- Spring-loaded cam produces instant progress capture
- Removable pin releases cam, facilitates easy installation at any point on rope
- Large connection point in cam accommodates rescue-sized carabiners
- Stainless steel quick-release pin
- Designed for optimal rope strength
- Made in USA

ITEM #
341103
DESCRIPTION
CMC ASCENDER
WEIGHT
8.8 OZ (252 G)
DIMENSIONS
4.5" L x 3" H x 1" W
COLOR
RED / GRAY
NFPA RATING
7/16 IN (11MM) – 1/2 IN (13MM) – TECHNICAL USE, 1/2 IN (12.5 -13MM) – GENERAL USE
