

# CMC Lanyards Periodic PPE Inspection Form

CMC Lanyards should have a periodic inspection performed by a competent person at least once every 12 months, after any exceptional event(s), or if there is any doubt to the condition of the product. For each inspection, CMC recommends this Periodic PPE Inspection Form be completed, signed and archived for the life of the product. In case of retirement, ensure to render the equipment useless before disposal to prevent further use.

### REFERENCE DOCUMENTS, available at [cmcpro.com](http://cmcpro.com)

- CMC Lanyards User Manual
- CMC Lanyards Periodic Inspection Procedure
- CMC Lanyards Inspection Form (this document)
